NAVAL MEDICAL CENTER PORTSMOUTH, VIRGINIA  
NAVY CLINICAL PSYCHOLOGY INTERNSHIP PROGRAM

## Program Disclosures

<b>Does the program or institution require students, trainees, and/or staff (faculty) to comply with specific policies or practices related to the institution’s affiliation or purpose? Such policies or practices may include, but are not limited to, admissions, hiring, retention policies, and/or requirements for completion that express mission and values?</b>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
<b>If yes, provide website link (or content from brochure) where this specific information is presented:</b>	

## Internship Program Admissions

**Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:**

This internship program provides an intensive twelve-month in-service period of clinical and didactic experiences. Interns develop a wide range of professional competencies within the context of four training rotations (1 in inpatient/acute care, 2 in outpatient mental health, and an elective tract with a choice among health psychology, child/family psychology, or neuropsychology assessment). Interns also participate in a year-long, Transrotational, Evidence-Based Therapy learning experience, and receive an introduction to substance use disorder treatment within a Navy dual diagnosis residential treatment facility. The mission of the program is the development of generalist clinicians who emerge from the training program with foundational and functional competencies appropriate for entry into a generalist clinical practice. Graduates of the program are expected to embark on a path of life-long learning to ensure the ongoing development of professional skills.

**Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:**

Total Direct Contact Intervention Hours	No		Amount:
Total Direct Contact Assessment Hours	No		Amount:

**Describe any other required minimum criteria used to screen applicants:**

1. U.S. citizenship required.
2. Applicants must meet all age, security background check, and medical requirements for commissioning as officers in the U.S. Navy. (AGE LIMIT: No more than age 41 at the time of commissioning).
3. APA-accredited doctoral program in clinical or counseling psychology required.
4. Comprehensive examinations passed by APPIC application deadline.
5. Given the predominantly adult focus of the Navy internship, and of Navy Psychology in general, we specifically seek applicants with practicum experience in generalist clinical assessment and psychotherapy with adults. Some experience with adults with major psychopathology is desirable but not mandatory. Applicants with minimal experience with adults, or with adult experience only in narrowly focused specialty areas such as neuropsychological assessment, would be at a significant disadvantage in our review.

## Financial and Other Benefit Support for Upcoming Training Year\*

Annual Stipend/Salary for Full-time Interns	\$84,984 (with dependents); \$83,652 (no dependents)	
Annual Stipend/Salary for Half-time Interns	NA	
Program provides access to medical insurance for intern?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
<b>If access to medical insurance is provided:</b>
